Author and publisher Joseph Sobran, has called this novel a "monumental work of genius." Blind Baseball is a game of absurdity and monstrosity as well. This is a novelized true story of a vicious super-divorce. Metaphorically it is a story of the death of the American family. As arbiter of the rules of marriage, divorce and custody the social engineers are intentionally attempting to destroy the traditional family to create a new socialistic blended family, one that has been through the blender. The modern materialist state accrues power unto itself and will not tolerate any rival authority or loyalty. The state has been wildly successful in fostering and exploiting divorce. Attorneys have been wildly successful at cashing in on the bonanza of subjective law and social engineering. Is the family being destroyed on purpose or is it just another case of government stupidity? The decision is yours. The stakes are enormous. Skeptical? Read the book.
